FYI-provided comments on DRAFT Public Health Risk Assessment provided by DOH. EPA will soon be sending a Draft Community Involvement Plan for our review as well.

Rhonda,

I finally had a chance to review document in more detail. One significant item that is lacking is an up-front summary of what documents have and have not been reviewed (i.e. DNR use authorizations and/or plate index information for ownership). This would eliminate need for reference to state-owned aquatic land on page 16 (see comment).

Another item of concern is mention of DNR report regarding ballast tanks along shore. Forgive ignorance but those currently in SQU were not aware of any reports regarding contaminants in these tanks-we were under perception these tanks only held ballast water. If there is such a report please provide so we may consider and reference while evaluating removal proposals.

Thanks again for providing chance to review. Please let me know if any questions, comments or concerns regarding my comments.

Shayne

I have a meeting at 2:00, so would 1:00 work for you? Will you have a chance to get through the document by then?

Thursday is best day I have this week-tentative meeting but don't think I need to attend unless management directs. Shall we say 1:30 you give me a ring?

Hi Shayne,

Thanks for getting back to me. I'm glad you have time to review the report. Can we set up a time to discuss any questions you might have on Thursday?

Rhonda

Hi Shayne,

I spoke to you a month or two ago regarding the PHA we were writing for this site. Could you review the report and give me any feedback? I'm hoping you could get some comments back to me by next

Friday 2/22.

I'm out of the office next week but Erin can answer any questions if you have them. Her email is attached.

Thanks,

Rhonda
